DIRECTORS' REVIEW

DEAR MEMBERS,

Your directors are pleased to present the condensed un-audited interim financial information of the company for the half year ended on 31 March 2013.

FINANCIAL RESULTS

The selling price of sugar remained unduly depressed during the crushing season in particular. The sale was therefore managed in the hope to contain the projected loss through sale at improved price in the off season. Consequently the sales revenue of the Company, during the period under review, reduced by 61% and reached only to Rupees 1,120 million as compared to Rupees 2,864 million, for the same period of last year. Gross profit is however, Rupees 205 million as compared to Rupees 178 million of last year. Profit after taxation, for the period, is Rupees 38 million (2012: After tax profit Rupees 34 million), resulting in a profit of Rupees 2.28 per share, as compared with EPS of Rupees 2.09, earned in the corresponding period of last year.

An increase of 13% in sugarcane support price, against a sharp fall in selling prices of sugar owing to a projected surplus, created a loss situation in sugar. The increase in gross profit of your company actually reflects the return on better sale prices of carryover stocks of sugar as well as ethanol, in first quarter of the period. Further, the highest average recovery for the mill, also contributed appreciably toward improving the results.

OPERATIONAL RESULTS

Sugar Division

The current crushing season commenced on 30 November 2012. Your mills crushed 603,528 m.tons of sugarcane and produced 57,765 m.tons sugar, with an average sucrose recovery of 9.57% in 107 days operation, as compared to 701,851 m.tons of sugarcane crushing and 65,683 m.tons of sugar production with 9.36% recovery in 114 days' operation in the corresponding period.

It is gratifying to report that your management's planned efforts for replacement of low recovery unapproved varieties of cane with high sucrose yielding new varieties have started paying dividends in the form of high average recovery for the season. Timely rains and a short period of frost have also helped in achieving this objective. A clearer picture will emerge after offseason cane crop survey of spring and autumn cane sowing and will be reported in subsequent quarterly reports.

Distillery Division

The distillery plants processed 32,065 MT of molasses and produced 8,366,763 liters of ethanol with an average yield of 261 liters of ethanol per MT of molasses in 112 days operation, as compared with 37,325 MT of molasses and 9,896,126 liters production of ethanol at an average yield of 265 liters of ethanol per ton of molasses, in 132 days operation during the corresponding period of last year. An increased volume of 8.2 million Litres of hydrous ethanol has been exported during the period under review, as compared to 3.2 million litres in the correspondence period last year.

The Company is actively collaborating with a recognized Bio-technology firm to assist us in taking an environment friendly initiative for utilizing sugar mills and distillery waste in replenishing the organic and inorganic nutrients for improved productivity of sugarcane crop.

Future Outlook

Due to uncertainty of actual sugar production and stock figures, it is difficult to predict the market trend, which continues to be depressed despite an export of over 700,000 tons of sugar by Sindh Mills in particular and also some quantities by Punjab & KPK mills, through Wagha and Torkham borders. A clearer picture of local market is likely to emerge when total allocated quantity of 1.2 million tons sugar has been exported and the increased consumption in beverages and Ramzan has set in. We hope that sale of balance stocks of sugar and ethanol will improve the results of the Company.

ACKNOWLEDGEMENT

The Board is thankful to the valuable members and Bankers for their trust and persistent support to the Company. The Board would also like to place on record its appreciation to all the employees of the Company for their dedication, diligence and hard work.

For and on behalf of the Board

Adnan Hayat Noon
Chairman & Chief Executive

AUDITORS' REPORT TO THE MEMBERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed interim balance sheet of Noon Sugar Mills Limited (the Company) as at March 31, 2013 and the related condensed interim profit and loss account, condensed interim cash flow statement and condensed interim statement of changes in equity together with the notes forming part thereof for the Six-months period then ended (here-in-after referred to as the "condensed interim financial information"). Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

The figures of the condensed interim profit and loss account for the quarters ended March 31, 2013 and 2012 have not been reviewed, as we are required to review only the cumulative figures for the Six-months period ended March 31, 2013.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information as of and for the Six-months period ended March 31, 2013 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.
